# Javo Easytopper

## Accurate and quick protection against weeds and moss

This machine spreads a covering layer of your choice over the top of the pot and underneath the plant to counteract the growth of weeds and moss.

The perfect feed setting is set in a flash. The adjustable speed feed system means the top layer can be adjusted to suit your requirements. There is a very easy setting to switch the Javo Easytopper to a different pot size.

## How does the machine work?

The tested feed system guarantees an even and quick feed.

The dosing plate, combined with the belt in the machine's bunker ensures quick and easy adjustment.

An easily adjustable slide plate accurately spreads the spreading material on the pot. Round pots are rotated to distribute the material evenly everywhere underneath the plant. Prior to exiting the machine the pot is levelled-off and the excess material is fed back. This ensures clean surroundings and also saves costs.

# Java Easytopper

## Advantages

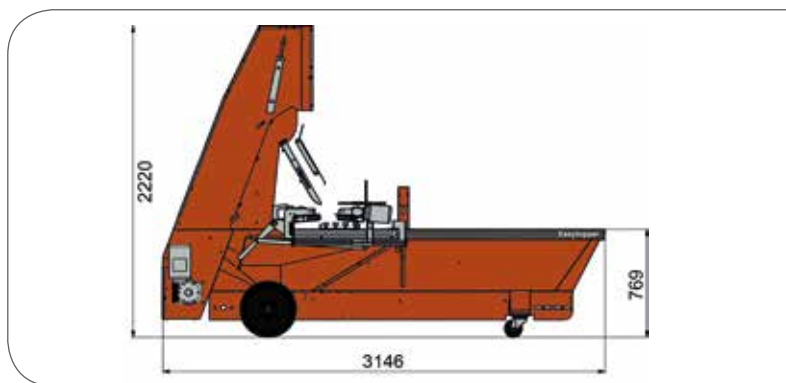

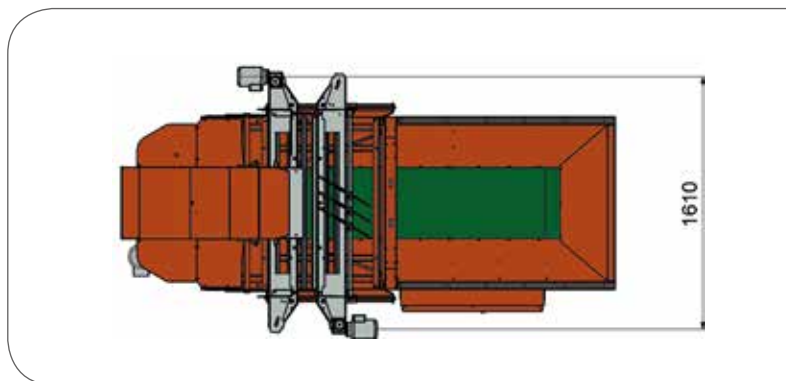

- Spreading material can be filled from a number of sides
- Easy to adjust so eminently suitable for use with multiple pot sizes
- Low maintenance
- Simple operation
- The 4 wheels (2 swivel wheels) make it highly manoeuvrable
- Easy to connect to other systems
- Variable set-up, depending on customer's requirements (left or right design)
- Accurate adjustment using the machine's dosing plate and belt
- Electronic speed adjustable feed wires

## Available options

- Soil bin extension
- Electronic speed adjustment and reverse switch for the elevator
- Various brush-off options
- Multiple electrical options
- Various options for brushing soil out of the pot
- Shaker unit

## Technical specifications

<b>Suitable for:</b>	round and rectangular pots
<b>Pot sizes:</b>	8 – 32cm (12 litres)
<b>Capacity:</b>	up to 6,000 pots per hour
<b>Length:</b>	3,150mm
<b>Width:</b>	1,610mm
<b>Height:</b>	2,220mm
<b>Soil bin capacity:</b>	770 litres
<b>Weight:</b>	600 kg
<b>Voltage:</b>	400V 50Hz / 220V 60Hz
<b>Power:</b>	1.2 kW
<b>Connection:</b>	16A, 5 pole CEE plug
